

# DIT HK FINTECH AWARDS 2017

The UK's Department for International Trade (DIT) Hong Kong FinTech Awards 2017 offer businesses an exciting opportunity to explore one of the world's leading FinTech eco-systems in the UK and get connected to potential clients, peers and investors.

*The UK is home to one of the world's leading FinTech hubs. It has continued to grow, exceeding £6.6 billion in revenue and employing over 61,000 people. UK FinTech companies also attracted £500m of investment in the first half of 2017, up 37% on 2016.*

To further promote FinTech innovations and boost market access for FinTech companies, the UK-Hong Kong FinTech Bridge agreement was signed on 20th September 2017, following similar agreements with South Korea, Singapore, India, Australia and China. The Bridge will further strengthen ties between governments, regulators and businesses, supporting FinTech companies in accessing and growing in both markets.

The DIT Hong Kong FinTech Awards can help you discover what the UK has to offer you and your business. They can help you, whether you are looking for highly skilled staff, consumers or industries that quickly adapt to innovations, or whether you are looking for a regulatory environment that can support your growth.
